Tom Spel

Interface and Graphic Designer

hi@tommert.com
www.tommert.com

Passionate Interface and Graphic designer. Using a structured design process I create innovative and aesthetic products. I love exploring different colors, shapes and concepts and find out what it is that people want from a product. Leveraging knowledge of design principles and processes, basic frontend development and experience as a projectlead to collaborative projects.

PROFESSIONAL EXPERIENCE

BIT Students. Projectlead, Interface Designer, Teamlead, November 2016 - Now | Amsterdam, Netherlands

Part of the 50 most talented students of Amsterdam. Worked in teams to create jumpstarts, new crazy projects' first versions, and ideate new innovations for clients. Started with interface design and frontend development, grew in to project and team leadership.

Representative projects:

- Bloomon: Led the ideation process, designing a new high fidelity prototype.
- Caesar: New app concept and design, starting with a paper prototype and ending with an interactive high fidelity prototype.
- Bencompare: Projectlead on creating a landingpage for the new Bencompare app. Worked on the design and frontend.
- Aagency: Led the project team while working on the design and frontend of Aagency's platform.
- Schoolpoort: Complete redesign of the school platform's interface. Worked both on ux as visual design of the new platform.

Tommert. Freelance designer, September 2016 - Now | Amsterdam, Netherlands

Work with clients to deliver outstanding Interface or Graphic design.

Representative projects:

- Better Basics: Coffee illustrations and poster design.
- WPGA: Created a new webdesign for the Dutch cyclists' website.

Fonk, Stagiair Visual Design, May 2016 - July 2016 | Amsterdam, Netherlands

Worked with experienced Visual and UX designers to create new products for clients.
